Professional Summary

Data Analyst skilled in Python, SQL, Power BI, Tableau, and Excel with hands on experience in data cleaning, exploratory data analysis (EDA), dashboard development, KPI reporting, and business intelligence. Built end to end analytics projects involving customer segmentation, sales analysis, RFM modeling, and data visualization. Proficient in transforming raw data into actionable insights through SQL querying, statistical analysis, and interactive dashboards to support data-driven decision making.

Technical Skills

- **Programming Languages:** SQL, Python
- **Data Visualization:** Power BI, Tableau, Excel
- **Databases:** MySQL, PostgreSQL
- **Libraries:** Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn
- **Machine Learning:** Regression, Classification, Model Evaluation
- **Core Concepts:** Data Cleaning, EDA, Dashboarding, Customer Segmentation, RFM Analysis, Business Intelligence, Statistics
- **Cloud & Tools:** AWS Basics, Jupyter Notebook, Google Colab, VS Code

Experience

Data Analyst Intern

Nov 2025 – Apr 2026

HelloGrowing, Ranchi, Jharkhand

- Collected, cleaned, and transformed business datasets using SQL, Excel, and Python for reporting and analysis.
- Developed interactive Power BI dashboards to track key business metrics and improve decision-making.
- Performed exploratory data analysis (EDA) to identify trends, anomalies, and actionable insights.
- Automated data preparation workflows, reducing manual reporting effort.
- Collaborated with business teams to generate reports and support data-driven strategies.

Projects

E-Commerce Customer & Sales Campaign Insights

- Analyzed 397K+ e-commerce transactions and customer purchase behavior using Python and Pandas.
- Performed data cleaning, feature engineering, and sales trend analysis to improve data quality and reporting.
- Built an interactive Power BI dashboard tracking revenue, orders, customer segments, and top-performing products.
- Conducted RFM-based customer segmentation to identify VIP, loyal, and high-value customers for targeted business strategies.
- Generated business insights on product performance, country-wise revenue, and monthly sales trends to support decision-making.

Credit Card Customer Analytics & Attrition Analysis

- Analyzed 5,719 customer records to identify customer attrition and retention patterns.
- Performed data cleaning, preprocessing, and EDA using Python, Pandas, and NumPy.
- Built an interactive Power BI dashboard to track attrition rate, customer segments, and transaction behavior.
- Conducted correlation analysis to uncover relationships between customer demographics, credit usage, and churn.
- Generated actionable business insights through data visualization and KPI-based reporting.

Education

Bachelor of Computer Applications (BCA)

Sep 2021 – Aug 2024

Vinoba Bhave University, Jharkhand

Certifications

PW Data Analytics | AWS Cloud Practitioner | Machine Learning (Columbia University) | ISRO Remote Sensing Data Analytics in Crop Production
