ABHIJEET ROY

DATA ANALYST | BUSINESS INTELLIGENCE | DATA SCIENCE

Ranchi, Jharkhand, India | +91-8252106982 | aroy96996@gmail.com

LinkedIn | GitHub | Portfolio

Professional Summary

Data Analyst with approximately one year of professional experience across Data Analyst and Data Analyst Intern roles, combining practical business analytics experience with hands-on development of data-driven and AI-powered analytical solutions.

Proficient in SQL, Python, Advanced Microsoft Excel, Power BI, Tableau, Salesforce, data analysis, business intelligence, reporting, dashboard development, data cleaning, data validation, exploratory data analysis (EDA), and data visualization.

Experienced in analyzing large datasets, developing interactive dashboards, performing customer segmentation, identifying business trends, and translating analytical findings into actionable insights. Developed InsightGPT, an AI-powered Business Intelligence platform integrating natural-language-to-SQL capabilities, Gemini AI, FastAPI, Streamlit, PostgreSQL, and interactive Plotly visualizations.

Strong analytical thinking, problem-solving, attention to detail, stakeholder communication, and ability to work across business and technical requirements. Interested in Data Analyst, Business Analyst, BI Analyst, Reporting Analyst, Analytics Associate, and Data Science opportunities.

Technical Skills

Programming and Data Analysis: Python, SQL, Pandas, NumPy, Exploratory Data Analysis (EDA), Statistical Analysis, Data Manipulation, Data Interpretation, Data Transformation, Data Cleaning.

Business Intelligence and Visualization: Microsoft Power BI, Tableau, DAX, Power Query, Plotly, Interactive Dashboards, KPI Reporting, Data Visualization, Business Intelligence, Performance Reporting.

Microsoft Excel: Advanced Excel, Data Cleaning, Data Analysis, Spreadsheet Reporting, Formulas and Functions, Pivot Tables, Lookup Functions, Charts and Data Visualization.

Databases and SQL: MySQL, PostgreSQL, Relational Databases, SQL Joins, CTEs, Subqueries, Aggregations, Window Functions, Data Retrieval, Data Validation, Query Optimization.

Salesforce and Business Operations: Salesforce, Business Reporting, Data Management, Stakeholder Communication, Business Requirements Understanding, Operational Reporting, Data Accuracy.

AI and Machine Learning: Generative AI, Gemini AI API, Natural Language Processing, Natural Language to SQL, Scikit-learn, Decision Trees, Feature Engineering, Predictive Analytics, Time-Series Forecasting, Prophet.

Development and Automation: FastAPI, Streamlit, REST APIs, HTTPX, Pytest, Application Integration, Reporting Automation, Git, GitHub, Render Deployment.

Professional Experience

Data Analyst **April 2026 – October 2026**

HelloGrowing – GronexxTT Eduventures Private Limited *India*

- Supported business data analysis, reporting, and performance monitoring activities to generate actionable insights for business decision-making.
- Worked with structured business datasets using SQL, Python, and Excel to organize, clean, validate, and analyze data.
- Performed exploratory data analysis to identify trends, patterns, inconsistencies, and opportunities for improved business understanding.
- Developed and maintained analytical reports and dashboards using Power BI and data visualization techniques to present business metrics and performance indicators.
- Used data transformation, validation, and analytical methods to improve data consistency and reporting reliability.
- Applied SQL queries and Python-based data processing to retrieve, manipulate, and interpret datasets for reporting and analytical requirements.
- Collaborated around business reporting requirements and communicated analytical findings to support informed business decisions.

Data Analyst Intern **October 2025 – March 2026**

HelloGrowing – GronexxTT Eduventures Private Limited *India*

- Assisted with data collection, preparation, cleaning, validation, and exploratory data analysis for business reporting and analytical activities.
- Used SQL, Python, and Excel to organize datasets, perform analysis, identify trends, and support reporting.
- Supported the preparation of structured reports and analytical outputs to communicate relevant business information.
- Worked with data manipulation and validation techniques to identify missing values, inconsistencies, and potential data quality issues.
- Gained practical exposure to business analytics, data visualization, reporting workflows, and problem-solving in a startup environment.

Key Projects

InsightGPT – AI-Powered Business Intelligence Platform *Python, SQL, PostgreSQL, Gemini AI*
FastAPI, Streamlit, Plotly, REST APIs, Pytest, HTTPX

- Designed and developed an AI-powered Business Intelligence platform that enables users to explore business data and generate analytical insights through natural-language queries.
- Integrated Gemini AI to support natural-language-to-SQL functionality, allowing users to convert business questions into SQL queries and interact with structured datasets.
- Developed backend services using FastAPI and connected PostgreSQL databases to retrieve and process analytical data.
- Built an interactive Streamlit interface to support business analytics, query execution, and data exploration.
- Implemented interactive Plotly visualizations to present revenue, customer, product, geographic, and payment-related analytical insights.
- Incorporated analytical capabilities including business performance analysis, customer analytics, trend analysis, and forecasting.
- Used Pytest and HTTPX for application testing and API validation, and deployed the application using Render.
- Combined Generative AI, SQL, Python, database integration, and visualization into a practical analytics application.

Project Links: GitHub Repository | Live Demo

Walmart Sales Analysis and Forecasting *Python, SQL, Power BI, Tableau*
Time-Series Analysis, Prophet Forecasting, Data Visualization

- Analyzed historical Walmart sales data from 2010 to 2012 across 45 stores to understand sales trends and business performance.
- Performed exploratory data analysis to investigate seasonality, historical trends, regional performance, and holiday-related sales patterns.
- Developed interactive dashboards using Power BI and Tableau to visualize store-level and overall sales performance.
- Applied the Prophet forecasting model to generate a 52-week sales forecast and explore potential future sales patterns.

Education

Bachelor of Computer Applications (BCA) **September 2021 – August 2024**

Vinoba Bhave University, Hazaribagh, Jharkhand
CGPA: 6.5/10

Certifications

- Data Analytics – PW Skills Certificate Link
- Machine Learning – Columbia University Certificate Link
- Remote Sensing Data Analytics in Crop Production – ISRO Certificate Link

Additional Information

- **Current Location:** Ranchi, Jharkhand, India.
- **Target Roles:** Data Analyst, Business Analyst, Business Intelligence Analyst, Reporting Analyst, MIS Analyst, Analytics Associate, Junior Data Scientist.
- **Professional Strengths:** Analytical Thinking, Problem-Solving, Attention to Detail, Stakeholder Communication,
